

INSTALLATION SERVICES

Flock room and related environmental equipment mezzanine. Complete turn key flock room is temperature and humidity controlled. Organization of the project by *Engineering & Industrial Services* allowed the customer to take care of the day-to-day operations of the plant.

Control panels provided by EIS or others can be installed according to customer requirements.

We can handle the entire package for any equipment. From individual equipment installation to a complete turn key application. Our experience allows us to work with many vendors or with you, the customer, in concert with other vendors.

**This information only represents a few of the machines we have done.
Call us and discuss your exact needs today.**

Together we build a better product.
